For more than 30 years, speos develops its unique mission: To be THE outsourcing partner to increase the value of our customers' outgoing paper and electronic document flows.

This means the treatment of incoming data, the printing, the enveloping, the archiving, the web presentment, the e-billing, the e-mailing, and all that for companies who send out large volumes of documents.

Our customers are the biggest Belgian and international companies.

speos, based in Anderlecht, is the leader in its domain and is part of bpost group.

Java Developer

Your Job
We are looking for a Java Developer with high desire to learn and deep passion for ICT technologies, experience in building high-performing, scalable, enterprise-grade applications.
